

Non-Incorporated Registration Index

(Partnerships, Trade Names and Trademarks)

Produced by: Arizona Secretary of State, Business Services Division

For questions on subscriptions or other publications of the Secretary of State, call the Business Services Division at 602-542-6187 or visit our web site at www.azsos.gov.

Ordering Options

The Arizona Secretary of State, Business Services Division maintains the database of over one hundred eighty thousand partnership, trade name and trademarks for the state of Arizona. These registrations are referred to as non-incorporated registrations (NIR) and are used as certified name registrations. They are continuously updated through the process of filing Partnership, Trade name and Trademark applications, where they are imaged and keyed into the NIR system. The NIR registrations, and soon the images of the registrations, are accessible and completely searchable to the public via the Internet at <http://www.azsos.gov>.

The NIR Registration Full Index (NIRFI) from the SOSAZ contains a complete index of all NIR registrations on file at the Arizona Secretary of State's office. Because of the enormity of the request, only the information in the index can be readily sold to the public, not the images. The information is the same information presented in the NIR Monthly Registration Index (NIRMI).

The NIR Monthly Registration Index (NIRMI) from the SOSAZ typically contains over two thousand records of NIR renewals and applications filed at the SOS in a given month. The index is published at the beginning of each month, 12 times a year. The NIRMI is comprised of the registrations for the previous month.

Description of Data

The data is presented in 8 tab-delimited text files. Below is a description of the data tables.

Agents Table

The Agents table hold entities named by partnerships as "agents for process of service".

AgentId	Primary key of the agents table
FilingNumber	File ID associated with the agent
BeginDate	Begin date of agent
EndDate	End date of agent, if any
EntityType	type of agent - values include: Person, General Partnership, LP, Foreign LP, LLP, Foreign LLP, LLLP, Foreign LLLP, LLC, Corporation, Domestic LLC, Foreign LLC, Professional LLC, Non Corporation, Bank, Firm, Association, Society, Foundation, Federation, or Organization
